Issue 47

FALL

2016

Board of Supervisors: Edward Brensinger  
Manager: Cheri Grumbine

Richard Miller  
Chief of Police: Harold Easter

A. Bruce Sattazahn

## Fall Clean up will be the week of October 17, 2016

Only **ONE** collection sweep of the Township will be made

### ACCEPTABLE ITEMS for collection are **BRANCHES, STICKS AND TWIGS**

(only these items will be collected).

- All branches must be cut to **6 foot in length** or smaller and be less than **6 inches in diameter**
- Place in **neat 6 foot to 8 foot long piles** along the curb (tangled messy branches are more difficult to pick up)
- Piles may be as high as 4 feet
- Any items placed in open barrels or bins will be collected and the receptacles will be left on the curb
- Please note that small containers are more easily dumped as well as containers which are not packed tightly

### UNACCEPTABLE ITEMS which **WILL NOT BE COLLECTED** are as follows:

- Non-wood items
- NO root systems
- NO sod of any kind
- NO chemically treated products
- NO furniture of any type

**Any unacceptable items will be left on the property and will be the owners' responsibility to discard.**

**A SUGGESTION FROM THE ROAD MASTER** – If you and your neighbor have small piles, please consider combining your piles into one larger pile to make it easier for the road crew to pick up. Please keep piles away from obstructions such as poles, mailboxes, cars, etc.

**Our Highway Department appreciates your cooperation in this process! Thank you!**

The Ebenezer Fire Company has partnered with the First Aid and Safety Patrol EMS to house an ambulance at their location on Route 72. This will help to reduce response times.

## LEAF COLLECTION

Township Road Crews will begin leaf collection on  
**OCTOBER 31** and end on **DECEMBER 16, 2016**

**OR** will cease on the first measurable snowfall, whichever comes first.  
**NO COLLECTION ON - Nov. 8th, Nov. 11th, and Nov. 24th**

**Please :** rake leaves out 2 feet away from curbing or to within 6" of roadside. Leaves to be collected should be placed away from mailboxes, cars and other objects to avoid damage to the equipment. Be aware that collection **is for leaves ONLY** and any other debris or items will damage the equipment.

**Do Not:** place sticks, twigs, ornamental grass, or any other items in leaf pile, park vehicles on top or near piles to be collected, or bag leaves.

**\*\*In the event of inclement weather leaf collection may be postponed.**

NLT's road crew would like to complete leaf collection prior to the arrival of winter weather.  
**PLEASE PUT YOUR LEAVES OUT AS SOON AS POSSIBLE!**

### TRICK or TREAT

Will be held on  
**Monday**  
**OCTOBER 31, 2016**  
From: 6pm to 8pm

**Rain Date: Nov. 1, 2016**

### LENNI LENAPE PARK

Consider adopting a tree or a bench in memory of a loved one. We still have 19 trees available for "adoption" and 5 benches. The cost is \$300 per tree and \$500 per bench. You can also purchase a plaque from our pre-approved designs and we will install the plaque free of charge.

### SEWER BILLING DATES ARE AS FOLLOWS:

February 10	August 10
May 10	November 10

If you do not receive a bill by the end of these months please call the Township Office at 717-273-7132 for your balance. We can NOT waive late fees.

A reminder that sewer payments are due by 4pm on the due date. If you have any questions, the complete payment policy is on our website.

For your convenience, both the Township and the Police Dept. have 24 hr. exterior drop off boxes. The phone number for county dispatch is listed on the Police Dept. door for after hour office needs.

Dispatch: 717-272-2054

Police Dept.: 717-273-8141

Looking for a way to promote your business? Consider sponsoring a hole within our new Disc golf course.

Brochures and information are available on our website at [www.NorthLebanonTwpPA.Gov](http://www.NorthLebanonTwpPA.Gov) or stop by the Township office.

## Maintenance of Stormwater Facilities

**What are Stormwater Facilities?** Stormwater Facilities are structures that capture, transport, slow down, and retain rain and/or snowmelt that flows over ground. Located above or below ground, stormwater facilities are an important tool in improving the quality of our waterways. These facilities include inlet and outlet structures, pipes, gutters, ditches, swales, French drains, rain gardens, infiltration trenches, underground tanks, and detention (dry) and retention (wet) basins.

**Why are Stormwater Facilities Important?** Impervious surfaces prevent water from absorbing into the ground and replenishing our groundwater. Stormwater facilities manage stormwater by capturing it, conveying it to proper locations, and removing pollutants. They prevent erosion, reduce flooding, and protect public health.

**Why Do You Need to Maintain Stormwater Facilities?** Trash, debris, sediment, mud, and other stormwater pollutants can clog stormwater facilities. The facilities themselves can develop structural cracks and leaks over time. Routine maintenance ensures stormwater facilities continue to function properly. Proper and regular maintenance of stormwater facilities prolongs the life of the facility, prevents failure and expensive repairs, and reduces water pollution.

**Who is Responsible for Maintenance? What is Required?** North Lebanon Township is responsible for stormwater facilities located within public streets. Property owners are responsible for maintaining stormwater facilities located on their property. Below are steps you can take to maintain stormwater facilities located on your property:

- ◇ **Grass Drainage Swales:** Remove trash and debris, keep area mowed, reseed bare or eroded areas.
- ◇ **Rock-Lined Facilities:** Remove trash and debris, remove excess sediment, and replace rocks as needed.
- ◇ **Porous Pavement:** Remove trash and debris including leaves, sweep to remove sediment, and vacuum—do not pressure wash, to remove clogs.
- ◇ **Infiltration Areas:** Remove sediment and debris, including flow path to area.
- ◇ **Detention and Retention Basins:** Remove trash and debris that wash into and clog pipes, clean out accumulated sediment, keep mowed, reseed eroded areas, and maintain vegetation areas.
- ◇ **Storm Drains:** Check storm drains for debris before and after storms to alleviate flooding, continually remove trash and debris from around drains.
- ◇ **Inlet/Outlet Facilities:** Remove trash, debris and excess sediment so water can enter/exit.

### **\*\* CAUTION \*\***

Only trained contractors should work within inlets, pipes, and other confined spaces. These areas may contain an oxygen-deficient environment or toxic gases. NEVER enter an underground vault, catch basin, inlet/outlet structure, or pipe without proper training and equipment.

## NATIONAL RECYCLING WEEK IS NOVEMBER 7th - 13th, 2016

If you are interested in having the Township Recycling Coordinator give a recycling presentation to your school, scouting, or civic organization within the Township, please contact the Township Office. Our Recycling Coordinator has the proper state required clearances to make a presentation and it can either be in conjunction with National Recycling Week or at a time more suitable to your organization.

The annual MS-4 Public Educational Presentation will be held on Monday, November 21st, 2016 at the Board of Supervisors regularly scheduled meeting beginning at 7:00pm at the Township Building.

### **2016 OFFICE CLOSINGS**

Labor Day—Sept. 5  
Election Day—Nov. 8  
Veterans Day—Nov. 11  
Thanksgiving—Nov. 24

*We would like everyone to take a  
moment to remember our  
**ARMED FORCES and VETERANS!!!***
